

PCC Goes Racing at Willow Springs Big Track October 22&23

Lets face it folks, we drive high performance cars. Besides just being cool cruising down the road, the thrill of acceleration, speed and aggressive cornering gets our adrenaline going.

Twice each year the usual suspects from PCC go to Willow Springs to run our cars at speed in a legal and controlled environment, with West Coast Racing.

This event is run with four run groups. There are; beginner, intermediate, advanced, and race groups. Instructors are provided for all. There is a classroom session for the beginners before they go on the track.

The big track at Willow Springs is a 2.5 mile course with 9 turns. It is a high-speed track.

You are only required to have a helmet and fire extinguisher to run your car.

Some folks go up on Friday night and some go Saturday morning. We return on Sunday.
