## President

**Howard Brunski** –

Discussed survey results. To summarize, it looks like we will continue a monthly Zoom meeting until State restrictions have relaxed or we identify a suitable outside venue with electricity/Hotspot. Before September, Harold will revisit with management of Hacienda. We've had 2 club drives that were successful.

**Prospective Board Members-** 7 people said they would be interested. There are 4 positions that have termed out. Secretary, Sgt. at Arms, Hospitality and VP. Usually we have nominations in October. Harold proposes we push it up to September in case we have difficulty filling the positions. Email to follow to membership. If nominating someone, please talk to them first.

**PCC Scholarship Committee-** in past we've had 4 Committee members, with President as acting as tiebreaker. Suggest 3 committee members and grandfather Don Wilder as one of the committee members. Bob Rose and Joe Perschler volunteered for the remaining 2 positions. We want to contact sponsors earlier this year so we know how much we can commit to the scholarship fund, then start the application process.

**PCC Charity Committee-** Harold to send an email for volunteers.

**PCC Awards Banquet at Phoenix Club** - mixed response. Next down payment due in November. Need to discuss with membership in September or October, and see if we can get our deposit back if members are reluctant to attend due to the virus.

## Scholarship

Don Wilder considering changes to Scholarship program since students don't seem interested. Last few years we've had few applicants so it was discussed and suggested we open up the field beyond automotive and include electronic and engineering with preference to automotive, and to other districts or agencies. Suggested that we re-write the application, put it online, perhaps use DocuSign or other source that manages electronic agreements so its easier for students.

Saddleback representative was replaced so Don will connect with new rep.

Simpson will continue to support our scholarship program and to continue to support past recipient Brianna if she keeps her grades up.

Bob Rose is going to double his donation this year which brings us to \$3000 if current sponsors continue their financial support.

Don will send an email to committee members to arrange meeting with goal to have entire process completed by early January 2021 which works with the students schedule.

Approval received by membership vote authorizing committee to decide what credentials are required for the scholarship, to rewrite the application and present in September. Motion approved.

Dave Atkinson shared that San Clemente High has a dedicated institute automotive program with about 300 students that Saddleback Unified funds. Dave to give Don Wilder the contact info so we can pursue.
