

**Let's Autocross!**  
**The weather is cooling off, and the 2023-24 performance driving opportunities are heating up!**

PCC will be joining the San Diego SCCA Region for a fun-filled autocross day at the Lake Elsinore Stadium on Saturday, October 21st. This is a practice day, not a competition (but your runs will be timed for your reference and a little friendly competition between us if anyone wants some side action ☺), so you should have lots of opportunities to get out on the course throughout the day.

It's different than getting on the track, but you track guys will likely love this too, as well as anyone else who likes to have fun with their vette but in a lower speed environment. Autocross is one of the most fun, safe, and easy events to participate in with your Corvette. The objective is to navigate through a sea of cones in a parking lot in the fastest possible time. But, because you are in a parking lot, you will not likely ever get out of 2<sup>nd</sup> gear. It's not about speed; it's all about precision.

We will meet at the usual Carl's Jr. in San Juan Capistrano and take the always fun Ortega Highway across to Lake Elsinore. The rest of the details will be coming as soon as registration opens up, which will be on September 23<sup>rd</sup>. We will send a reminder and dial everyone in with details at that time. In the meantime, if you plan on coming, please drop me a quick e-mail so I can give the organizers a heads-up on how many of us to expect.

Bob Rose
