To put your car on it, send photos of the front with a slight side angle.

**Design #2: Sliced Race Track**

The design is "sliced" so you will see the color of the shirt peek through. Example of one on a red shirt and one on a blue shirt. To put your car on it, send photos of the front with a slight side angle.

**Design #3: Fireball**

No modifications to this design and it would be a large design (like the Corvette Day shirts). You can choose to have it on the front or back.

**Design #4: OC Palms**

No modifications to this design and it would be a large design (like the Corvette Day shirts). You can choose to have it on the front or back.
